Good morning all,

Roger and I received confirmation about the location we selected in West Virginia and we're fine to use that site. I've attached the updated tables for the letter to Andrew Hartten. Let me know if you have any questions or if I need to make any changes.

Thanks,

Kevin Rowsey

Hi Rick,

I didn't think everyone needed to be copied on this second e-mail, but I am copying the people that need to know so the change to the list of sites to be sampled can be made. The site in Ohio that already has GAC treatment is

Ex. 6 Personal Privacy (PP)/ Ex. 9

Thus, that one should not be sampled and the replacement is **Ex. 6 Personal Privacy (PP)/ Ex. 9** Kathy Davis, AECOM's consultant, e-mailed me that this morning.

Rick or Kevin, are you able to update the site sampling location sheet? I am leaving on Sunday to work long hours in the field next week and I will not have time to do it.

Thank you in advance,
Jenny

Subject: Chemours_GenX_sampling request2_4_27_18_draft.docx

Dear Region 5 colleagues:

Attached is what we hope to be the final draft of the round two sampling letter to Chemours. Hopefully you've been filled in by now, but Andrew Hartten agreed to conduct the sampling as outlined in the letter. This letter will be accompanied by a copy of the first request from January and a listing of the sites to be sampled in this round. We shared a draft list with Chemours earlier this week. Roger told me that one or two of the private wells identified have been hooked up to public water, so additional sites were to be selected. I'm not sure if that process is complete, yet, so the list of sites is still being worked on as far as I know (I was meeting with Delaware today, so if anything happened today, I haven't heard about it, yet).

This draft incorporates comments from our DRA as well all previous comments from you all in Region 5. Mark Garvey was the only one in OECA who responded to our request for input and most of his comments changed what Jacquie had added, so we did not incorporate his changes. Neither Jeff Speir nor Elisabeth Freed responded with any comments.

Please share this up your chain so they are all aware of the final draft and let us know if there are any last minute comments. It appears that this letter won't require as much pre-planning work with OPA in HQ, but I'm waiting for confirmation on that. I'm hoping to get this signed early next week.

Thanks,

Rick
